/EINPresswire.com/ -- [Zarastro Art](#) is thrilled to announce its collaboration with [Jan Tichy](#), an internationally acclaimed contemporary artist based in Chicago renowned for his socially and politically engaged conceptual artwork. On view through December 1, 2023, the multimedia exhibition seeks to reexamine form through the artist's evocative exploration of light, architecture, and objects.

Working at the intersection of photography, video, and sculpture, Tichy has developed a formal and minimalist visual language that deals insightfully with crucial contemporary themes including secrecy, uncertainty, and the interplay between the seen and the unseen.
