"We want a future where vehicles are fueled by power that's clean and also dynamic. So, when it comes to alternative-fuel models we've definitely got choices. In fact, [drivers] can choose from four different kinds: hybrid, plug-in hybrid, all-electric, and fuel cell. They all use our battery technology that's backed by a 10-year/100,000-mile warranty. And our alt-fuel family keeps getting bigger—with 13 models by 2022." - Hyundai

“

For a brand that was once the butt of jokes when it began selling cars in the U.S. during the 1980's, Hyundai has come a long way to become one of the country's most awarded and respected automakers.”

U.S. News & World Report

Hyundai Sonata

The Hyundai Sonata has been one of Hyundai's most popular models for years. The 2023 Sonata is set to be even better, with a sleek new design and improved performance.
