

PageProof releases an automated barcode scanner perfect for packaging proofs

PageProof's latest feature release, an automated barcode scanner, will enhance accuracy and efficiency in your review and approval process of artwork proofs.

AUCKLAND, NEW ZEALAND, June 8, 2023 /EINPresswire.com/ -- [PageProof](#), the industry-leading online proofing platform for agencies and marketing teams, today announced the launch of another ground-breaking feature, an automated [barcode scanner](#) to improve the accuracy and efficiency of reviewing and approving packaging proofs.

"Our latest feature release is a perfect example of how PageProof never accepts the status quo," says Gemma Hurst, CEO of PageProof. "The automated barcode scanner really is time-saving magic for reviewers. It quickly identifies all barcodes and QR codes on a proof, making it ingeniously simple for both designers and marketing teams to ensure details are pixel-perfect."

"The automated barcode scanner really is time-saving magic for reviewers."

*Gemma Hurst, CEO of
PageProof*

The automated barcode scanner has been meticulously engineered to revolutionize the process of checking the accuracy of barcodes and QR codes on artwork proofs. This ground-breaking feature effortlessly detects and highlights codes on proofs, offering unmatched convenience. And this is only the beginning. Additional smart features of the barcode scanner include:

- Identifying the number of unique barcodes on a proof.
- Displaying barcode details on screen for quick and accurate verification.

- Clicking on the code for easy copying to your clipboard, or creating a comment that includes the code.
- Opening QR code links in new tabs for seamless review.

It has never been so easy to escalate your proofing productivity. Best of all, the automated barcode scanner ensures that there are no surprises in relation to barcodes when packaging goes to print.
