

AUVSI and Messe Düsseldorf North America Release Data Demonstrating Successful Staging of XPONENTIAL 2023

ARLINGTON, VIRGINIA, USA, June 8, 2023 /EINPresswire.com/ -- Following the close of the first XPONENTIAL trade fair jointly organized by the Association for Uncrewed Vehicle Systems International (AUVSI) and Messe Düsseldorf North America (MDNA), the two organizations declared the event a resounding success.

The leading U.S. trade show for uncrewed vehicles and robotic technologies celebrated its 50th anniversary in Denver from May 8-11. XPONENTIAL 2023 offered a world-class platform for industry changemakers and end users to see how new technologies are solving real world problems, including in the public safety and defense, energy, infrastructure, business, construction, health care and environment sectors.

The XPONENTIAL 2023 exhibit hall showcased the vast range of uncrewed and autonomous technologies with significant industry participation:

- 600 companies presented their products and services
- 7,000 professionals engaged across three days of programming
- 41 companies participated in Tech Pavilions, where they hosted demonstrations to get attendees face-to-face and hands-on with ground-breaking innovations from maritime, public safety, autonomous ground vehicles, cybersecurity, and composites sectors
- Outdoor demonstrations by three exhibitors showed their products operating in real-world conditions
- U.S. Drone Soccer presented the Federation of International Drone Soccer Association (FIDA)'s international Drone Soccer Competition
- Highlighting its commitment to ushering the next generation into this field, middle- and high school students showcased STEM projects related to uncrewed vehicles
- 26 organizations and individuals were announced as winners of AUVSI's 6th annual XCELLENCE awards and honored for their commitment to advancing autonomy

The concurrently held educational conference attracted top global thought leaders and featured

programming around the theme “Building the Blueprint for Autonomy.”

-The conference featured over 165 hours of educational programming with 78 standalone presentations, 46 panel discussions and 21 workshops

-Keynote speakers included Acting Federal Aviation Administration (FAA) Administrator Billy Nolen; Cybersecurity expert Alex Stamos; and Founder and former Commodore of CENTCOM’s Task Force 59, Michael Brasseur

-Sessions on cybersecurity, data management, design and testing, policy and workforce development drew significant attendee participation

Reflecting the global expansion of this important industry sector, XPONENTIAL 2023 bolstered its largest international component in recent years:

-Official delegations from 14 countries traveled to the event, with the highest percentage coming from Asia, followed by Europe

-One-fifth of all attendees came from countries outside the U.S., representing a 65% increase in international attendees compared to the 2022 event

-Five international pavilions showcased domestic innovations from Germany, Québec, Spain, Switzerland and Asia Pacific

-The launch of XPONENTIAL Europe was also announced at the event by Dr. Stephan Keller, Mayor of Düsseldorf, and Brian Wynne, AUVSI President and CEO, to be held February 18 - 20, 2025 at the Düsseldorf Exhibition Center in Germany

“This was a true team effort, and I am very proud of all of us and what we accomplished. Our first time working together with AUVSI on XPONENTIAL confirmed that our two organizations are a great fit and we will further develop this trade show with its important theme for the autonomous future,” stated Tom Mitchell, President, Messe Düsseldorf North America.

Brian Wynne, President and CEO of AUVSI, sees this as a major advantage in the partnership with Messe Düsseldorf: “XPONENTIAL 2023 was an impactful beginning of a partnership that will continue to grow both thematically and geographically. Every year, the uncrewed systems industry moves faster than the year before. This partnership will ensure that as this trajectory accelerates, so does the value XPONENTIAL provides.”

The next staging of XPONENTIAL will take place from April 22 – 25, 2024 at the San Diego Convention Center, California, USA. For more information: www.xponential.org.

About XPONENTIAL

Co-hosted by AUVSI and Messe Düsseldorf North America, XPONENTIAL is the leading annual gathering for global leaders and end users of uncrewed technologies. Founded on a belief that cross-pollination drives innovation, it’s the only event designed to advance the entire autonomy

ecosystem. Each year, the show welcomes thousands of the industry's top minds to cultivate collaboration, spark new ideas, and this year, build the blueprint for autonomy. XPONENTIAL is a catalyst – helping each attendee transform their vision into real opportunities. For more information, visit <https://www.xponential.org>
