Immunoassay Global Market Report 2023 - Market Size, Trends, And Global Forecast 2023-2032

The growth in the global immunoassay industry is due to the increasing numbers of infectious and chronic illnesses. North America region is expected to hold the largest immunoassay market share. Major immunoassay companies include Siemens Healthineers GmbH, bioMérieux, Abbott, Beckman Coulter Inc., Quidel Corporation, Ortho Clinical Diagnostics, Sysmex Corporation, Bio-Rad Laboratories Inc.

[Immunoassay Market Segments](#)

- By Product: Reagents And Kits, Analyzers Or Instruments, Software And Services
- By Specimen: Blood, Saliva, Urine, Other Specimens
- By Application: Therapeutic Drug Monitoring, Oncology, Cardiology, Endocrinology, Infectious Disease Testing, Autoimmune Diseases, Other Applications
- By End User: Research And Academic Laboratories, Home Care Settings, Pharmaceutical And Biotechnology Companies And CROs, Blood Banks, Hospitals And Clinics, Clinical Laboratories
- By Geography: North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Immunoassay is a bioanalytical test that employs antibody attachment to antigens to detect and quantify specific chemicals. Diseases can be diagnosed using immunoassays. Furthermore, information from test findings concerning an illness may be used to establish a course of therapy. This technique relies primarily on a competitive binding response for a finite number of receptors on an extremely specific anti-analyte antibody between a set quantity of labelled versions of an analyte and a substantial portion of an unmarked sample analyte.
