Transitional Care Management Services Global
Market Report 2023 – Market Size, Trends, And
Market Forecast 2023-2032

This type of care management refers to a collection of services that assists patients in transitioning from one healthcare environment to another, such as from a hospital to a primary care physician. It is used to guarantee continuity of treatment, minimize avoidable bad outcomes, and limit possibly avoidable readmissions and medical mistakes in the 30 days following discharge from the acute care environment.
