

VIA Introduces RAM® Mounts Kit for VIA Mobile360 Forklift Safety System

Featuring robust construction and reliable locking mechanisms, the mounts prevent unwanted movement by securely holding mounted devices in position.

TAIPEI, TAIWAN, June 13, 2023

/EINPresswire.com/ -- • Boosts system stability in the most demanding warehouse, industrial, and construction operating environments

- Comprises five RAM® Mounts for securely holding the system, display, and three cameras in position
- Ensures effortless installation on combustion-engine and electric forklifts of all types

[VIA Technologies, Inc.](https://www.viatech.com/) today announced a new RAM® Mounts Kit for the VIA Mobile360 FSS (Forklift Safety System) to enhance stability and performance when the system is in operation by reducing shock and vibration.

“

With their durable and versatile design, the mounts ensure smooth system operation in the most demanding warehouse, industrial, and construction environments.”

Richard Brown, VP of International Marketing at VIA Technologies, Inc.

The kit includes five RAM® Mounts for the system, display, and three cameras, and is available for all VIA Mobile360 FSS 2PD and 3PD Packages. Additional VESA plates are also required.

Featuring robust construction and reliable locking mechanisms, RAM® Mounts prevent unwanted movement, securely holding mounted devices in position. The flexible mounting options, adjustable arms, and attachment mechanisms offered by the mounts ensure that the VIA Mobile360 FSS can be effortlessly installed on combustion-

engine and electric forklifts of all types.

“With the introduction of the RAM® Mounts Kit for the VIA Mobile360 FSS, we are continuing to raise the bar for forklift safety,” said Richard Brown, VP of International Marketing at VIA Technologies, Inc. “With their durable and versatile design, the mounts ensure smooth system operation in the most demanding warehouse, industrial, and construction environments.”

About the VIA Mobile360 Forklift Safety System

The VIA Mobile360 FSS prevents pedestrian collisions and injuries in busy warehouse and industrial environments with its support for pinpoint people detection and driver fatigue, smoking, and phone usage alerts. This smart and reliable IP67-rated system is available in a variety of packages and configurations to meet diverse operational safety scenarios and has been adopted by leading global enterprises across a diverse array of industries, including chemicals, auto manufacturing, food and beverages, and one of the world's busiest harbors.
