2032, with a compound annual growth rate (CAGR) of 4.8% during the forecast period. The market growth is attributed to various factors, including increasing consumer demand for natural and clean label products and growing awareness about the benefits of modified starch in diverse applications.

“

The global modified starch market size was USD 11.53 Billion in 2022 and is expected to reach a value of USD 17.58 Billion in 2032 and register a revenue CAGR of 4.8% during the forecast period.”

Reports and Data

Reports And Data

The surge in demand for convenient food options is a key driver for the modified starch industry. Changing lifestyles and busy schedules have led consumers to seek out easily prepared and consumed meal choices. Modified starch is commonly used as a stabilizer, thickener, and emulsifier to enhance the texture, consistency, and shelf life of processed food items such as sauces, dressings, soups, baked goods, and ready-to-eat meals. The growing popularity of convenience foods is fueling the demand for modified starch and contributing to the expansion of the market.

Major Companies:

- Cargill, Inc.

- Ingredion Incorporated
- Tate & Lyle PLC
- Avebe U.A.
- Roquette Frères
- ADM (Archer Daniels Midland Company)
- AGRANA Beteiligungs-AG
- Emsland Group
- Global Bio-chem Technology Group Company Limited
- Sudzucker AG

Market Overview:

In the food and beverage sector, all businesses involved in the processing, packaging, or distribution of raw food materials are included. In addition to medications, this industry touches all human-made products, including fresh and packaged meals, alcoholic and nonalcoholic beverages.

Since the Covid-19 outbreak has caused a financial depression, consumers are trying to conserve their money as much as possible. To do this, consumers are buying more generic things and cooking their own meals instead of eating out. In order to reduce the cost of goods sold, attract more customers, and increase profit margins, food processing companies are becoming more creative.

As a result of obesity, the global food and beverage industry is experiencing tremendous growth. As consumers' desire for healthy foods has increased, so has their demand for more detailed nutrition data. Both of these changes have caused companies to launch lower-calorie foods and tighten their control over how their brands are perceived.

The global Modified Starch market is segmented into:

- North America (U.S.A., Canada, Mexico)
- Europe (Italy, U.K., Germany, France, Rest of Europe)
- Asia Pacific (China, India, Japan, South Korea, Australia, Rest of APAC)
- Latin America (Chile, Brazil, Argentina, Peru, Rest of Latin America)
- Middle East & Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)
