

Educational Credential Evaluators (ECE) Announces Discontinuation of Scholar Profile Product

As of May 31, 2023, the Scholar Profile product will no longer be available.

MILWAUKEE, WI, UNITED STATES, June 14, 2023 /EINPresswire.com/ -- At the start of the COVID-19 pandemic, [ECE](#) developed the Scholar Profile to meet the needs of the many students who were unable to obtain official documents during these unusual circumstances. The intention was to enable applicants to move forward with obtaining an evaluation of their credentials despite the global disruption, provided the university to which they were applying would accept this preliminary assessment.

In most areas of the world, students can now obtain the documents required to meet ECE's standard document requirements. Therefore, as of end of day on May 31, 2023, ECE has discontinued the Scholar Profile product.

While applicants will no longer be able to order a Scholar Profile, ECE will continue to find ways to work with students from countries where official documents are impossible or dangerous to obtain, including Somalia, Eritrea, and Afghanistan.

One option that continues to be available is the ECE® [Exclusive Use Report](#). This report type is prepared using academic documents provided by the requesting institution, which may include photocopied, scanned, or incomplete documents. This is available only to institutions and is intended for exclusive use only.

ECE remains committed to serving applicants from all over the world and developing products that solve problems for both individuals and institutions.
