According to HTF Market Intelligence, the Global OSS BSS Software market to witness a CAGR of 11.5% during forecast period of 2023-2029. The market is segmented by Application (BFSI, IT & Telecom, Media & Entertainment, Others) by Type (OSS Software, BSS Software) by Enterprises (Small & Medium Enterprise (SME), Large Enterprise) by Deployment Mode (On-premises, Cloud) and by Geography (North America, South America, Europe, Asia Pacific, MEA).

Definition:

Operations support system (OSS) is a software which operate a telecom network and maintain a customer services. It comprises specialized software, which is traditionally used by network planners, support, operations and engineering teams in the service provider. Business support system (BSS) is a software application that supports various customer activities including customer relationship management (CRM), order management, billing and call center automation. Moreover, the relationship between OSS and BSS is simple, where OSS usually passes numerous service orders and also supplies service assurance information to the BSS. Additionally, BSS focuses on managing the business aspects associated with the telecommunications network to secure revenue and maintain quality, while also supporting various business functions such as marketing, product offerings, sales, contracting, and delivery of goods and services. Together with OSS, BSS is used to support various end-to-end telecommunication services.

Market Trends:

- Outsourcing OSS BSS Design and Development to Managed Service Providers
- Rising Demand for Customized OSS-BSS Software

Market Drivers:

- Increasing Adoption of Cloud-Based BSS
- Surging in Numbers of SMEs to Ensure Better Manageability of Resources Globally
- Increased Adoption of Revenue Management Systems (RMS)

Market Opportunities:

- Increasing Awareness Regarding Enhancing Service Assurance in the Telecommunication Sector
- Growing Demand for Lowering Operational Expenditure and the Increasing Popularity of Convergent Billing Systems in Emerging Economies

Revenue and Sales Estimation — Historical Revenue and sales volume are presented and further data is triangulated with top-down and bottom-up approaches to forecast complete market size and to estimate forecast numbers for key regions covered in the report along with classified and well-recognized Types and end-use industry.

SWOT Analysis on OSS BSS Software Players

In addition to Market Share analysis of players, in-depth profiling, product/service, and business

overview, the study also concentrates on BCG matrix, heat map analysis, FPNV positioning along with SWOT analysis to better correlate market competitiveness.

Demand from top-notch companies and government agencies is expected to rise as they seek more information on the latest scenario. Check the Demand Determinants section for more information.

Regulation Analysis

- Local System and Other Regulation: Regional variations in Laws for the use of OSS BSS Software
- Regulation and its Implications
- Other Compliances
