“

We are truly honored to be selected as a partner by Seed Group and are excited to bring our unique approach to innovation to the UAE and the region.”

Mehul Desai

incubation, venture capital, an enterprise innovation platform, and a future-of-work academy to build and nurture human resources. It provides software services for legacy and mature systems, software product engineering for IP-driven enterprise requirements, and digital transformation services. Tntra operates across the US, EU, India, Singapore, and Japan and has extensive domain experience in FinTech, HealthTech, IoT, Supply Chain, Advanced Manufacturing, and New Economy.

As a technology company, Tntra has led several successful digital transformation projects globally for large and small enterprises across diverse domains, leveraging Artificial Intelligence,

Machine Learning, Blockchain, IoT, Cloud Computing, and more. Additionally, Tntra's unique and proven methodologies, supported by an engineering team with deep technology and domain expertise, help companies develop and deploy IP-led SaaS and PaaS-based new economy solutions.

Tntra, in partnership with Seed Group, will provide comprehensive software engineering services to enterprises

across the region. Furthermore, the partnership will bring Tntra's Future-of-Work Academy (or Gurukula) and Enterprise Innovation Platform (or Yntra) to enterprises, universities, and government agencies tasked with driving innovation and workforce development across the UAE, GCC, and MENA region.

Tntra, an Official Seed Group Partner

Mehul Desai, Chairman and Co-founder of Tntra, said, "We are truly honored to be selected as a partner by the Seed Group and are excited to bring our unique approach to innovation to the UAE and the region. The UAE has long been the leader in the region in pioneering and showcasing cutting-edge technologies and companies. Along with the Seed Group, Tntra has the perfect partner to help enterprises effectively manage digital transformation, build and nurture their workforce for the future, and efficiently drive innovation across critical industries."

On this partnership, Hisham Al Gurg, CEO of Seed Group and the Private Office of Sheikh Saeed bin Ahmed Al Maktoum, said, "Harnessing the power of technology and innovation is crucial for the growth and development of the UAE and the region. We are thrilled to partner with TNTRA to bring their cutting-edge solutions to the forefront. This strategic collaboration allows us to combine TNTRA's expertise with our deep industry knowledge and extensive network, empowering businesses and driving digital transformation. Together, we will revolutionize the technology landscape and create a sustainable impact in key sectors. We are excited about the possibilities that lie ahead and the positive outcomes this partnership will bring."

Shardul Bhatt, CEO and Co-founder of Tntra said, "Tntra, thru its engineering team and deep domain experts, has more than thirty years of software engineering experience, developing several successful technology ventures and driving innovation at a global scale. With the support of the Seed Group, we will now bring all of this experience and expertise to local enterprises and entrepreneurs to help them build and deploy the next generation of products and solutions for FinTech, HealthTech, IoT, Supply-Chain, and Logistics, Advanced Manufacturing, and New Economy.
