

Green Home Systems Introduces BrightCharge: Energy Storage Solutions to Empower CA Homeowners in Navigating NEM3.0

Green Home Systems introduces BrightCharge: an advanced energy storage solutions designed to provide CA homeowners with reliable storage & backup capabilities.

LOS ANGELES, CALIFORNIA, USA, June 19, 2023 /EINPresswire.com/ -- Green Home Systems is pleased to unveil [BrightCharge and BrightCharge Plus](#), two advanced energy storage solutions specifically designed to provide California homeowners with reliable

storage or backup capabilities. These groundbreaking products, developed in partnership with industry leaders [Enphase](#) and [Panasonic](#), offer cutting-edge technology at the best price guarantee, empowering homeowners to tackle the challenges of NEM 3.0.

BrightCharge and BrightCharge Plus enable homeowners to effectively store excess energy generated from their solar panels, ensuring a continuous power supply during outages or high-demand periods. These solutions serve as reliable backup and storage systems, granting homeowners greater control over their energy usage while promoting energy independence.

By forging strategic partnerships with renowned energy technology companies Enphase and Panasonic, Green Home Systems can deliver exceptional quality and performance to homeowners. BrightCharge and BrightCharge Plus leverage Enphase's advanced microinverter technology and Panasonic's reliable battery systems, providing unmatched efficiency and reliability.

"We are thrilled to introduce cutting-edge energy storage solutions in collaboration with Enphase and Panasonic," says Barry Durand, Green Home Systems General Manager. "With the best price guarantee, BrightCharge and BrightCharge Plus enable homeowners to access top-tier technology at an affordable cost, empowering them to achieve energy independence in the face of NEM 3.0."

With the best price guarantee, BrightCharge enable California homeowners to access top-tier technology at an affordable cost, empowering them to achieve energy independence in the face of NEM 3.0."

Barry Durand, GHS Manager

Green Home Systems has long been committed to providing eco-friendly and sustainable solutions for homeowners. The partnership with Enphase and Panasonic further solidifies the company's dedication to delivering superior products that combine advanced functionality, affordability, and environmental consciousness.
