

Solid Waste Management Market to Grow USD 1,193.88 Billion by 2027 | At a 2.4% CAGR | Emergen Research

Strict government regulations regarding solid waste disposal and increasing industrialization in the emerging economies are driving the demand of the market.

VANCOUVER, BC, CANADA, June 20, 2023 /EINPresswire.com/ -- The global [Solid Waste Management Market](#) will be worth USD 1,193.88 Billion by 2027, according to a current analysis by Emergen Research. The growth of this market can be attributed to the strict government regulations

regarding solid waste disposal. The increasing population growth and the rising amount of waste generated every year are expected to drive the growth of solid waste management solutions. Favorable regulatory policies regarding the proper solid waste disposal, such as carbon tax or direct subsidies, or landfill taxes, is most likely to fuel the demand for solid waste management solutions.

“

Solid Waste Management Market Size – USD 1,000.12 billion in 2019, Market Growth - CAGR of 2.4%, Market Trends – Favorable regulatory policies”

Emergen Research

Rapid urbanization and industrialization in emerging economies are key factors contributing to the increasing adoption of solid waste management solutions. The growing initiatives of the government to reduce the contamination of water bodies and carbon emissions are most likely to propel the growth of the market over the forecast period. Utilization of the municipal solid waste (MSW) as fuel to generate renewable energy sources

through thermal and biological techniques is projected to drive growth opportunities for the future. The increasing preference of the developed countries towards Zero waste generation and waste recycling will surely boost the demand for solid waste management and recycling solutions.
