CallTower enables customers to manage rapidly changing technologies through CallTower Connect – a user-friendly portal, created and developed in-house. This proprietary system ensures CallTower customers can administer services without expertise in any one technology or hiring outside consultants to manage their UCaaS platforms. CallTower Connect is built from the ground up for speed and ease of use. The application is launched from a web browser by an end user or company administrator to add or manage CallTower solutions, Microsoft Teams, Webex by Cisco, Zoom, CT Cloud Voice, CT Cloud SIP, Email and Conferencing solutions.

Launched in 2018, the AI Global Excellence Awards provide Acquisition International Magazine an opportunity to celebrate and draw attention to innovative companies, teams and individuals who are driving change, surpassing expectation, and excelling across the vast corporate landscape. Recipients are selected through a merit-based system, via research carried out by AI's impartial team rather than external nominations. The criteria require that there is evidence of significant achievement and a clear commitment to innovation, for a company to pass the shortlisting stage and go on to be recognized and publicized to AI's readership.

“We are honored to receive this coveted award from AI for our CallTower Connect proprietary admin portal,” added CallTower Chief Revenue Officer William Rubio. “CallTower Connect is a revolutionary tool that enables our customers to easily personalize and control their CallTower services and we're proud to see this recognition in the communication industry.”□
