Introducing the Night Assault on Prontera, a new dungeon specifically designed for level 90 adventurers. This challenging quest features the fallen Valkyrie Himomes and her confidant, the formidable boss "Byu." Byu's mastery of dark ice magic and ability to render damage futile with a powerful shield present a formidable challenge. Adventurers must exercise caution to evade Byu's immobilizing techniques and devastating ice magic attacks.

As adventurers reach level 90, they will embark on an engaging main storyline set in the ancient city of Crestham, which has lain in ruins for centuries. To support this progression, a range of level 90 equipment is now available.
