Pepper spray is a non-lethal personal safety weapon, which is used for personal defenses and to control crowd and criminals. A blast of pepper spray stops almost one or more attackers. Pepper spray is also used to protect from deadly animals such as rhinos, bear, and tigers. It is a highly effective deterrent that delivers immediate results.

Rise in crimes, such as rape, eve teasing, murder, kidnaping, and human trafficking, is the major factor encouraging people to buy pepper sprays. Although various gadgets or weapons are used for personal defense such as pocket knife, self-vigilant alarm, aluminum baseball bat, and silver self-defense key cases; however, among these, pepper spray is the foremost choice for women as it is one of the most common and effective defense weapons. A bottle of pepper spray is compact and will easily snug into a handbag. Furthermore, innovations and technological developments in pepper sprays are anticipated to contribute to the growth of the market during the forecast period. For instance, SABRE - Security Equipment Corp. developed SMART pepper

spray, in which the smart device can be paired with the SABRE Personal Safety App, with GPS tracking and third-party monitoring.

During lockdown period, due to the COVID-19 pandemic, supply chains are being adversely affected and the whole consumer goods industry is still incurring losses. Governments are frequently practicing total lockdown to limit the spread of the virus, in which retail stores, including specialty shops are strictly suggested to remain close. Despite these hurdles, the Pepper Spray Market witnesses positive growth due to the COVID-19 pandemic as people are afraid of getting looted and robbed. Unemployment and food scarcity are some of the negative side effects of the COVID-19 pandemic, which are reaching high levels in the U.S., thereby resulting in increase in the shoplifting and robbing.
