

# Highlights from the Round Up News Magazine - June 22, 2023

*The latest news and trends for the construction, building and design community*

SUNDRE, ALBERTA, CANADA, June 22, 2023 /EINPresswire.com/ -- Construction Links Network is a unique news platform where members "Get More Eyes" on their digital content and increasing their SEO.

The network includes thousands of Canadian construction managers, contractors, developers, building managers, property managers, architects, designers, engineers, government officials and more.

Members use this platform to share and onboard their digital content on the Internet, through social media and our popular Round Up News Magazine. Ideal for product / service releases, company announcements, blogs, podcasts, webinars, case studies, videos and more.

Welcome to this edition of the Round Up News Magazine published by Construction Links Network.

It has been almost two years to the day that Champlain Towers South, a 12-story beachfront condominium in the Miami suburb of Surfside, Florida partially collapsed, causing the deaths of 98 people. Watch the first top video where the National Institute of Standards and Technology gives us the latest insider view into the official investigation surrounding the collapse.

The second top video is courtesy of Interesting Engineering who dive into the architectural symbolism, where buildings are more than mere structures and have stories to tell. Discover the hidden meanings within the classical designs of iconic structures. This exploration isn't just for architecture enthusiasts but for anyone interested in the deep interconnection between human culture, history, and the built environment.

Content shares from members this week include:

- T. Harris Environmental Management - Why The Concern About Manganese In Welding?
- TrueLook Construction Cameras - Spring Clean to a More Efficient Construction Practice
