Social Security is an integral part of [Retirement Planning](#).

A person's Retirement will be better if they plan for it early, and seek professional advice.

Fraser Allport offers a Complimentary Consultation to help people determine their optimum Social Security claiming strategies at :

With 10,000 Baby Boomers turning 65 each day in the United States, Fraser Allport believes that Fiduciaries must be educated regarding Social Security.

There are approximately 76 million Baby Boomers nationwide.

Boomers are folks born between 1946 and 1964.

Many Advisors claim to do Retirement Planning, but are not trained and versed in the intricacies of Social Security.

The NSSA Certificate promotes advanced Social Security education. This Social Security expertise gives Fraser Allport the knowledge to expertly counsel his Clients on the best way to claim Social Security benefits. This allows Social Security claims to maximize their lifetime Social Security income.

Social Security was enacted in 1935, and has of thousands of pages of Rules.

Moreover, the rules are different for a person's Retirement benefits vs. their Spousal and Survivor benefits, and also for those who are Divorced. Social Security also has complex rules for Family and Children's benefits, Social Security Disability, and Supplemental Social Security.

Understanding the complexities of various Social Security Claiming Strategies is challenging for the average person.

It is no wonder that many people and Families do not receive the full amount of Social Security that they are legally entitled to.

Every year, the Social Security Administration runs an audit of itself.

SSA finds that there are billions dollars of unclaimed benefits that people were legally entitled to ... if they only knew the Rules and their Rights.

Social Security is simple in concept, but complicated in practice.

After 12 months, your Claiming Strategy cannot be reversed.
