Increase in need for business agility & automation, ease in deployment of applications with pay-as-you-go model, and rise in demand for cloud migration in business continuity fuel the growth of the global cloud migration services market. On the other hand, vendor lock-in and enterprise application's cloud compatibility & cloud interoperability impede the growth to some extent. However, surge in cloud expenditure and requirement for lower CAPEX and OPEX are expected to create new opportunities in the industry.

The global cloud migration services market is segmented into service type, application,

organization size, deployment mode, industry vertical, and region. Depending on service type, the market is bifurcated into managed services and professional services. The applications covered in the study include project management, infrastructure management, security & compliance management, and others. By organization size, the market is segregated into large enterprises and small- & medium-sized enterprises (SMEs). The deployment model segment is fragmented into public cloud, private cloud, and hybrid cloud. On the basis of industry vertical, the market is differentiated into BFSI, manufacturing, healthcare & life sciences, IT & telecommunications, consumer goods & retail, government & public sector, media & entertainment, and others. Region wise, the market is analyzed across North America, Europe, Asia-Pacific, and LAMEA.

Covid-19 Scenario-

□ The Covid-19 pandemic led to huge adoption of agile business continuity plan, while cloud adoption also became "a new normal" for organizations looking for all-in-one execution of "work from home" strategy.

□ Apprehending the advantages such as abridged cost, enriched efficiency, and convenience, the IT & telecommunications industry has augmented the migration process and enabled multi-cloud environments.

□ Simultaneously, many cloud service providers have come up with attractive cloud migration strategies, which in turn has created several opportunities for the leading market players.
