The key players operating in the baking mix and enzymes industry include Archer-Daniels-Midland Company, Associated British Foods Plc., Cargill Incorporated, E. I. Du Pont De Nemours and Company, Ingredion Incorporated, Kerry Group, Plc., Koninklijke DSM N.V., Dawn Food Products, Inc., Bakels Group, and Lallemand Inc.

Furthermore, cookies & biscuits, which are consumed as snacks are rapidly gaining popularity especially among the youth. Recurrent product innovations to enhance the taste, texture, and health benefits of the food item fuel the demand for cookies & biscuits. Manufacturers are focusing toward introduction of new flavors and innovative packaging to appealing consumers. Moreover, cookies & biscuits serve as a standard choice for gifting along with other

confectionery items such as chocolates. In addition, low-calorie cookies & biscuits are gaining high popularity among health-conscious consumers, which fuel the baking mix and enzymes market growth.

Moreover, the increase in preference for on-the-go food products, which are readily available in the market has increased, due to changes in eating habits and busy lifestyle. For instance, availability of various instant premix powders in the market to make desserts at home easily without much efforts significantly contributes toward the growth of the market.

In addition, cakes & pastries are mostly consumed as desserts among youngsters. Increase in disposable income and rise in urbanization are positively affecting the cakes & pastries market. Furthermore, in large cities, the working population mostly prefers on-the-go foods such as snacks, pastries, and cakes. In addition, cake pops, a new type of cake-based snack is gaining increasing popularity among the young population. They are bite-sized cakes that are available in a range of

designs and are styled as lollipops. Hence, increase in trend of customizable pastries and cakes along with introduction of new toppings & flavors boost the cakes & pastries market, which is in turn is anticipated to fuel the growth of the global baking mix and enzymes market.
