

Xiao-I to Launch Revolutionary Generative AI Model at a Press Conference on Thursday, 29th June

China's Own ChatGPT Language Model for Various Industries

SHANGHAI, CHINA, June 26, 2023 /EINPresswire.com/ -- Xiao-I Corporation (NASDAQ: AIXI) ("Xiao-I" or the "Company"), a leading cognitive artificial intelligence (AI) enterprise in China, is set to release its Large Language Model (LLM) at the Shanghai Film Museum on Thursday, June 29, at 2 p.m. CST UT+8:00.

"LLMs can lead humanity into a positive era of artificial intelligence, this is a critical moment for China's AI industry," stated Mr. Yuan Hui, Chairman and CEO of Xiao-I. "It is imperative for China to develop its own ChatGPT."

Xiao-I's LLM can directly integrate with business systems, empowering enterprise-level software. It can also generate a controllable output, be rapidly deployed to a user system, and achieve systemic delivery to realize "controllable, customizable, and deliverable" goals.

The Model is "controllable" in terms of ideology, laws and regulations, computing power algorithms, cultural values, ethics, and morality. It ensures controllable data security at the national level and controllable content output at the enterprise level. As a "customizable" system, it caters to the specific needs of customers, such as models, contents, components, and scenes. The model's "deliverable" nature ensures low computing power costs, low deployment costs, and low training costs for LLMs.

Xiao-I LLM has 5 major highlights that set it apart within the industry.

1. It exhibits extensive capabilities in natural language processing, enabling it to comprehend and generate complex textual content.
2. It seamlessly integrates with information services, facilitating various practical applications such as data querying, analysis, and summarization.
3. It fosters continuous knowledge augmentation and improvement through innovative methodology "IlifeLong Learning (iL3)" approach.
4. It expands the capabilities of the Model horizontally through intelligent enhancement, to extent its potential applications.
5. The Linear Framework enables faster and more flexible personalized customization, underlining Xiao-I's commitment to creating adaptable, cutting-edge AI solution.

The press conference will focus on the Model's milestones, showcasing its intelligence and distinctive characteristics through product demonstration, comprehensive explanation, and on-site experiences.

Time of announcement: Thursday, June 29 02:00pm CST UT+8:00

Venue: Studio 5, Shanghai Film Museum, No. 595 North Caoxi Rd., Xuhui Dst., Shanghai, China

Forward-Looking Statements

Certain statements in this announcement are forward-looking statements. These forward-looking statements involve known and unknown risks and uncertainties and are based on the Company's current expectations and projections about future events that the Company believes may affect its financial condition, results of operations, business strategy and financial needs. Investors can identify these forward-looking statements by words or phrases such as "approximates," "assesses," "believes," "hopes," "expects," "anticipates," "estimates," "projects," "intends," "plans," "will," "would," "should," "could," "may" or similar expressions. The Company undertakes no obligation to update or revise publicly any forward-looking statements to reflect subsequent occurring events or circumstances, or changes in its expectations, except as may be required by law. Although the Company believes that the expectations expressed in these forward-looking statements are reasonable, it cannot assure you that such expectations will turn out to be correct, and the Company cautions investors that actual results may differ materially from the anticipated results and encourages investors to review other factors that may affect its future results in the Company's registration statement and other filings with the SEC.
