

SuperGreen Solutions® Reveals New Extensions to its Services, Positioning it for Growth in the Renewable Energy Market

Newly appointed CEO Michael Epps' "Franchisee First" strategy expands SuperGreen Solutions in the \$387B Market

BEL AIR, MARYLAND, UNITED STATES, June 26, 2023 /EINPresswire.com/ -- [SuperGreen Solutions®](#), an emerging leader in the green energy industry, unveils new service extensions with the launch of its newly enhanced website. This significant update solidifies the company's commitment to sustainability in the commercial and residential sectors, offering a more comprehensive range of innovative renewable energy solutions. The enhanced website now features expanded residential and commercial services nationwide, positioning SuperGreen Solutions® for remarkable growth within the green energy market.

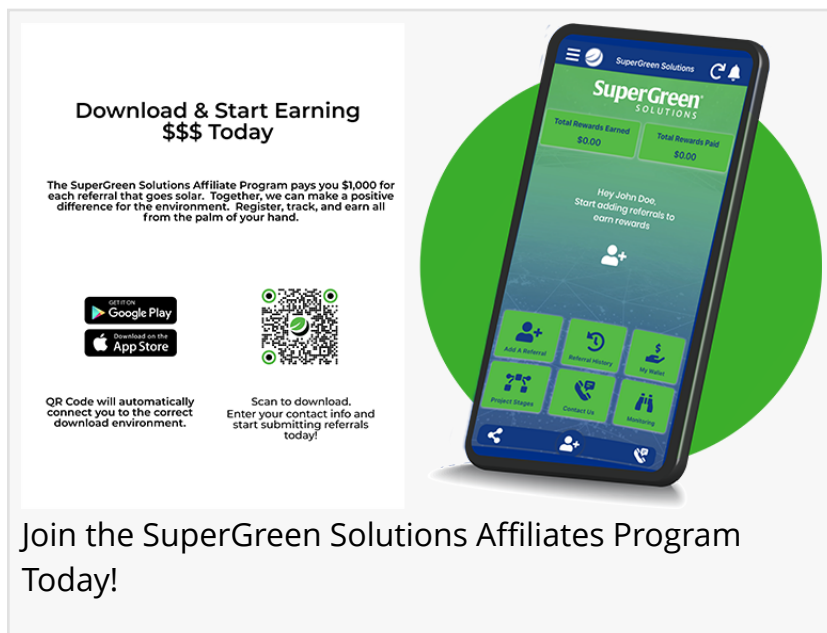

for the global good

Home featuring recent installation by SuperGreen Solutions

Building upon its vision to become a trusted name in the green energy industry, SuperGreen Solutions® has established strategic partnerships to further expand nationally. SuperGreen aims to introduce green solutions to fossil fuel dependent regions by making renewable energy easily accessible. SuperGreen Solutions® has recently entered into an exciting [multi-state franchisee partnership with M7 Ventures](#) in Q2 of 2023. This collaboration is key to the new CEO's visionary "Franchisee First" strategy. Under the leadership of Michael Epps, who took the helm in March 2023, one of the top priorities has been to identify regions still heavily reliant on fossil fuels and strategically position SuperGreen Solution franchises in these areas. The mission is clear: introducing accessible and innovative renewable energy solutions to these fossil fuel-dominated regions.

The market for sustainable energy presents vast opportunities for expansion. Precedence Research forecasts the solar power market to reach a staggering [\\$368.63 billion by 2030](#), demonstrating the immense room for growth within this sector. Additionally, Maximize Market Research Private Limited just released its latest report showing that the trendy solar lights market is expected to reach \$18.16 billion by 2029, while BlueWeave Consulting and Research Pvt Ltd predicts the solar-powered EV charging stations market to reach \$366 million by 2029.
