By deployment, the on-premise segment dominated the overall customer journey analytics market in 2020 and is further expected to endure traction for customer journey analytics among various organizations during the forecast period. In today's digital era, companies strive to provide consistent information and seamless experiences across diversified channels that reflect customer's history, preferences, and interests. This is a major factor that drives the on-premise customer journey analytics adoption among industries across the globe.

On the basis of touchpoint, it is divided into web, social media, mobile, email, branch/store, call center, and others. On the basis of organization size, it is divided into large enterprises and small and medium-sized enterprises. Depending on industry vertical, it is categorized into BFSI, IT & telecommunications, retail & e-commerce, healthcare, media & entertainment, travel & hospitality, and others. Based on region, the market is analyzed across North America, Europe, Asia-Pacific, and LAMEA.
