

# R&R Express Ranks #54 on the 2023 Transport Topics "Top 100 For-Hire Carriers" List

*Transport Topics released its annual Top 100 list of the largest for-hire carriers in North America based on overall revenue generated in the last 12 months.*

PITTSBURGH, PA, UNITED STATES , July 13, 2023 /EINPresswire.com/ -- Transport Topics released

“

We remain dedicated to driving innovation, expanding our capabilities, and maintaining our position as a leading for-hire carrier.”

*Richard S. Francis, CEO of R&R Express*

its annual Top 100 list of the largest for-hire carriers in North America based on overall revenue generated in the last 12 months. R&R Express ranks #54 among all for-hire carriers competing in this market, an impressive jump from last year’s #61 ranking.

“The 2023 Transport Topics ‘Top 100 For-Hire Carriers’ publication offers an in-depth look at the largest trucking companies in North America and the key issues they are facing,” said Seth Clevenger, Transport Topics’ managing editor of features. “Most large for-hire carriers were able to

grow their businesses last year despite softer freight market conditions that have continued through the first half of 2023. The updated Top 100 list illustrates how this shifting freight environment and further consolidation have altered the competitive landscape in trucking.”

Importantly, the article reports that R&R Express has experienced significant growth since 2021. Part of our focus this past year was to add assets to our organization to fully support our customers and the many modes we are now serving.

"We are immensely proud of our climb on Transport Topics' prestigious list," says Richard S. Francis, CEO of R&R Express. "This accomplishment is a result of our team's hard work, commitment, and focus on providing best-in-class customer service. We remain dedicated to driving innovation, expanding our capabilities, and maintaining our position as a leading for-hire carrier."

As R&R Express continues to grow and thrive, the team prioritizes customer service and uses state-of-the-art solutions for improved customer experiences. Iterative operational changes help

improve efficiency and communication, resulting in strong and lasting relationships with customers for unparalleled transportation services.
