The International African American Museum (IAAM) explores the history, culture, and impact of the African American journey on Charleston, on the nation, and on the world, shining light and sharing stories of the diverse journeys, origin, and achievements of descendants of the African Diaspora. Across 11 galleries and a memorial garden with art, objects, artifacts, and multi-media interaction, IAAM is a champion of authentic, empathetic storytelling of American history. As a result, the museum will stand as one of the nation's newest platforms for the disruption of institutionalized racism as it evolves today. The mission of IAAM is to honor the untold stories of the African American journey at the historically sacred site of Gadsden's Wharf and beyond.
