

Antares Vision Group Becomes First DSCSA Compliance Software on the GSA MAS Contract with Lovell Government Services

The distinction is a result of a partnership between rfxcel and SDVOSB Lovell Government Services that aims to protect patients served by government entities.

TRAVAGLIATO, BRESCIA, ITALY, June 28, 2023 /EINPresswire.com/ -- [Antares Vision Group](#), through [rfxcel](#), a leading provider of supply chain traceability and compliance solutions, has been awarded a spot on the General Services Administration (GSA) Multiple Award Schedule (MAS) contract. With partner Lovell Government Services, a service-disabled veteran-owned small business (SDVOSB), this significant achievement demonstrates the companies' commitment to federal and state government entities that operate pharmacies and the patients they serve.

Antares Vision Group Becomes the First DSCSA Compliance Software Awarded a Spot on the GSA MAS Contract with Lovell Government Services

Through its partnership with Lovell, rfxcel is the first Drug Supply Chain Security Act (DSCSA) compliance software provider to be awarded a spot on the GSA MAS contract, a procurement vehicle for government agencies to purchase goods and services from pre-approved vendors. The contract includes pre-negotiated terms and conditions that simplify the procurement process.

The DSCSA is designed to improve the safety and security of the drug supply chain in the United States by rapidly detecting and removing harmful drugs. It requires manufacturers, distributors, dispensers (i.e., pharmacies and health systems), and other entities to track, trace, and verify certain medicines as they are received and dispensed.

rfxcel's DSCSA solution for government dispensers is already in use by the Ohio Department of Veterans Affairs. Lovell is a contracted vendor for many government agencies, including the Department of Veterans Affairs, the Defense Logistics Agency, and the Department of Defense.

"Listing on the GSA MAS contract through Lovell is a win-win for everyone," said rfxcel Vice President of Government Services Greg Moulthrop. "First, it protects patients who use government pharmacies. But it also enables government agencies to easily and efficiently purchase our [DSCSA compliance](#) software solutions and gives government customers the dual benefit of complying with the DSCSA while working toward their SDVOSB procurement goals."

"We are excited to be partnering with Antares Vision Group, through rfxcel, on this important initiative," said Chris Lovell, CEO of Lovell Government Services. "rfxcel has made it their mission to help federal pharmacies meet DSCSA compliance requirements by November 2023 and Lovell is honored to play a part in it. DSCSA isn't just about protecting the supply chain, it is also about protecting patients."
