

Inogic's Undo2Restore Revolutionizes Data Recovery in Microsoft Dynamics 365 CRM with 1 Click

NEW YORK, NY, UNITED STATES, June 28, 2023 /EINPresswire.com/ -- [Inogic](#), a leading provider of innovative productivity solutions for Microsoft Dynamics 365 CRM, has unveiled its ground-breaking data recovery solution, [Undo2Restore](#).

This revolutionary tool introduces a seamless and efficient approach to data recovery, empowering organizations to restore their critical CRM data with just one click!

With its advanced features and unparalleled ease of use, Undo2Restore is set to transform the way businesses manage and safeguard their valuable data within the Microsoft Dynamics 365 CRM platform.

“

Inogic is thrilled to reintroduce a more powerful and better version of Click2Undo with Undo2Restore.”

Inogic CEO, Roohi Shaikh

Undo2Restore addresses a crucial need in the realm of Microsoft Dynamics 365 CRM data recovery, where unexpected data loss or accidental deletions can have severe consequences on businesses. This innovative solution simplifies the data recovery process and significantly reduces downtime, enabling organizations to quickly recover from data mishaps and maintain uninterrupted business operations.

Earlier known as Click2Undo, Inogic carefully analysed user feedback and conducted extensive market research, before rebranding Click2Undo as Undo2Restore. This marked as a pivotal moment in the company vision and direction. Roohi Shaikh, CEO of Inogic said, “Inogic is thrilled to reintroduce a more powerful and better version of Click2Undo with Undo2Restore.”

“Undo2Restore is an innovative solution that represents a major milestone for our company and reinforces our commitment to simplify Microsoft Dynamics 365 CRM processes. We are excited about the impact Undo2Restore will bring to our customers, empowering them to recover their data effortlessly and ensuring uninterrupted workflows,” she added.

Undo2Restore offers unique features and benefits tailored to the needs of CRM users. By utilizing a simple and intuitive interface, users can:

- Effortlessly Recover Deleted Records in 1 Click!
- Retrieve Accidentally Removed Activities
- Bulk Restoration of Multiple Records
- Restore Lost Attachments
- Restore Records Using Historical Data

This solution eliminates the need of complex data restoration procedures, saving valuable time and resources for businesses.

Emphasizing about the benefits of Undo2Restore David Sora – a user of Undo2Restore on AppSource says, “Undo2Restore, is an excellent and very simple tool to recover records information. Installation and usage is quite simple. Works efficiently and does the job for which it was design to.”

Likewise, Patrick Ingwer, another user stated, "By default, the Microsoft D365 system can record all activities and uses of the system. Whether it is entries, calls of records or deletions with metadata - who has deleted what. One function, however, is missing in the CRM D365 and is almost indispensable in daily work, especially when many employees work together in a collaborative manner is the 1-click solution to recover deleted records in a flash.”

He further added, “Because how quickly do you delete something by mistake, a whole data record including connections to other data records in the Microsoft Dynamics 365 CRM. Click2Undo is the solution here!”
