

# ITI and TVA Honored with Nuclear Energy Institute Award for Innovative Practices

*ITI & TVA, collaborated to revolutionize the training and development process for polar crane operators through the ITI VR Polar Crane Simulator.*

WOODLAND, WASHINGTON, UNITED STATES, June 28, 2023

/EINPresswire.com/ -- Industrial Training International (ITI) and Tennessee Valley Authority (TVA) are pleased to announce that they have been recognized with the prestigious Nuclear Energy Institute (NEI) Award for their exceptional innovative practices in the field of nuclear energy. The TIP Award is bestowed upon organizations that have demonstrated outstanding contributions and advancements in the industry.

The ITI Design and Development Studio worked with subject matter experts and operators from TVA and other industry stakeholders to ensure the polar crane simulator matched the level of realism provided by the existing, award-winning ITI VR Crane Simulator

 **INDUSTRIAL TRAINING INTERNATIONAL**  
ITI VR Training Solutions

The NEI Award acknowledges ITI and TVA's significant accomplishments in enhancing training methodologies, safety protocols, and operational effectiveness within the nuclear power domain. Their dedication to excellence and forward-thinking approaches have set new standards for the industry, making a lasting impact on the workforce, and fostering a culture of continuous improvement.

“

This TIP award is a testament to the collective efforts of ITI and TVA in pushing the boundaries of training and innovation within the nuclear energy sector.”

*Zack Parnell, CEO, ITI*

ITI, a global leader in [crane and rigging training solutions](#), and TVA, a prominent power provider in the Tennessee Valley region, have collaborated to revolutionize the training and development process for polar crane operators through the use and implementation of the ITI VR [Polar Crane Simulator](#). To address the increasing demand for a safe, realistic, and scalable method for training a new generation of polar crane operators, the ITI

Design and Development Studio worked with subject matter experts and operators from TVA and other industry stakeholders to ensure the polar crane simulator matched the level of realism provided by the existing, award-winning ITI VR Crane Simulators.

ITI and the Tennessee Valley Authority are proud recipients of this year's Top Innovative Practice Award from the Nuclear Energy Institute.

The award-winning, state-of-the-art [virtual reality training programs](#) are designed to simulate realistic scenarios for crane operators and rigging professionals. This cutting-edge

technology has revolutionized the training process by providing immersive and practical learning experiences, ultimately enhancing safety and proficiency in high-risk work environments.

In response to winning the TIP Award, Zack Parnell, CEO of ITI, expressed his gratitude, saying, "We are honored to receive this prestigious recognition from the Nuclear Energy Institute. This TIP award is a testament to the collective efforts of ITI and TVA in pushing the boundaries of innovation within the nuclear energy sector. We remain committed to driving advancements and improving the industry's safety standards through our training solutions."

The NEI TIP Award serves as a testament to ITI and TVA's unwavering commitment to innovation, safety, and continuous improvement within the nuclear energy industry. Their remarkable achievements have set a benchmark for excellence, inspiring industry peers and stakeholders to adopt similar innovative practices.

For further information about ITI and TVA's groundbreaking contributions to the nuclear energy industry, please visit their respective websites at [ITI.com](http://ITI.com) and [TVA.com](http://TVA.com).

#### About Industrial Training International (ITI):

Industrial Training International (ITI) is a leading global provider of crane and rigging training solutions. With over three decades of experience, ITI offers comprehensive training programs, virtual reality simulations, and consulting services to enhance safety, productivity, and operational excellence across various industries.

#### About Tennessee Valley Authority (TVA):

Tennessee Valley Authority (TVA) is a recognized leader in providing clean, reliable, and affordable electricity to the Tennessee Valley region. TVA operates a diverse portfolio of nuclear, hydroelectric, coal, and natural gas power plants, delivering power to approximately 10 million people across seven southeastern states.
