

# Worldwide Medical Plastic Market Size Worth USD 85.54 Billion by 2030, States Emergen Research

*Increasing funding and investments in healthcare is a key factor driving medical plastic market revenue growth*

VANCOUVER, BRITISH COLUMBIA,  
CANADA, June 29, 2023

/EINPresswire.com/ -- The Latest research study released by Emergen Research on "[Medical Plastic Market](#)" with 150+ pages of analysis on business Strategy taken up by key and emerging industry players and delivers know how of the current market development, landscape, technologies,

drivers, opportunities, market viewpoint and status. Generally speaking, the research is gathered from manufacturers, vendors, research papers, product catalogues, and other sources before being further confirmed. In terms of market prediction, industry segmentation, business models, and other criteria, the analysis includes both quantitative and qualitative research. Other

“

Medical Plastic Market Size – USD 44.84 Billion in 2021 To Reach USD 85.54 Billion by 2030 – at a CAGR of 7.5%”

driving market revenue growth. Surging demand for point-of-care diagnostic tools, multi-purpose drug packaging, miniaturization of devices, and surgical instruments are contributing to revenue growth of the market.

List of Key Players Profiled in the Medical Plastic Market Report:

SABIC, Saint-Gobain Performance Plastics, Celanese Corporation, Evonik Industries AG, BASF SE, Röchling SE & Co. KG, Orthoplastics Ltd, Solvay, Nolato AB, and Eastman Chemical Company

Target Audience of the Global Medical Plastic Market Report:

Key Market Players.

Investors.

Venture capitalists.

Small- and medium-sized and large enterprises.

Third-party knowledge providers.

Value-Added Resellers (VARs).

Global market producers, distributors, traders, and suppliers.

Research organizations, consulting companies, and various alliances interested in this sector.

Government bodies, independent regulatory authorities, and policymakers.

Some Key Highlights From the Report

- The polyphenylsulfone (PPSU) segment accounted for a significant revenue share in 2021. High-temperature and chemical resistance properties of PPSU enable increasing utilization as an alternative of metals in various medical applications which is one of the key factors driving revenue growth of the segment. Moreover, owing to high-temperature resistance capability enable easy steam sterilization of medical devices made from PPSU.

- Versatility, good flexural modulus, high tensile strength, shatterproof and high durability of PPSU makes it ideal for production of single-use as well as multi-use surgical instruments. Resistance to cleaning agents and various solvents and low moisture absorption are some of the major factors driving revenue growth of the segment.

- The medical disposables segment accounted for largest revenue share in 2021.

- Surging demand for single-use surgical products as well as procedural applications in addition to growing preference for at-home healthcare for increasing elderly population are few of the key factors boosting revenue growth of the segment. Medical disposables enable prevention of cross contamination between patients and reduce risk of surgical site infection which are some of the major factors increasing demand for medical disposables.

## Market Segmentation Analysis

Players can concentrate on high-growth regions and, if necessary, modify their business plan according to the research report. The Medical Plastic Market is divided into a variety of categories, uses, and geographical areas. Players gain from the report's regional segmentation research since it offers pertinent data and insights into important geographic marketplaces.

Product Outlook (Revenue, USD Billion, Volume (Kilo Tons); 2019-2030)

Polypropylene (PP)

Polyethylene (PE)

Polycarbonate (PC)

Liquid Crystal Polymer (LCP)

Polyethersulfone (PES)

Polyethylenimine (PEI)

Polyphenylsulfone (PPSU)

Polymethyl Methacrylate (PMMA)

Others

Application Outlook (Revenue, USD Billion, Volume (Kilo Tons); 2019-2030)

Medical instruments

Medical disposables

Drugs packaging

Prosthetics & implants

Others

COVID-19 Impact Analysis

The post-COVID-19 phase has undergone substantial change, and Medical Plastic Market research highlights the opportunities and difficulties that still exist. This study report thoroughly examines the effects of the COVID-19 pandemic on the global economy and post-pandemic market behaviour.

### Objectives of the Report

- To carefully analyze and forecast the size of the Medical Plastic Market by value and volume.
- To estimate the market shares of major segments of the Medical Plastic Market
- To showcase the development of the Medical Plastic Market in different parts of the world.
- To analyze and study micro-markets in terms of their contributions to the Medical Plastic Market, their prospects, and individual growth trends.
- To offer precise and useful details about factors affecting the growth of the Medical Plastic Market

## Regional Outlook

We carefully examined each division, regional classification, national study, and subject-specific data set during the market research. This Medical Plastic Market research report's goal is to look at growth patterns, promising futures, important obstacles, and expected results. Information on significant market participants, strategic alliances, plans, new product launches, and joint ventures are all included in the research.

## Key Reasons to Purchase Medical Plastic Market Report

The reader will be in a position to comprehend and react to marketing strategies like using strengths and conducting a SWOT analysis.

The research looks into the dynamics of the target market and how the conflict between Russia and Ukraine has affected it.

About Us:

Emergen Research is a market research and consulting company that provides syndicated research reports, customized research reports, and consulting services. Our solutions purely focus on your purpose to locate, target, and analyse consumer behavior shifts across demographics, across industries, and help clients make smarter business decisions. We offer

market intelligence studies ensuring relevant and fact-based research across multiple industries, including Healthcare, Touch Points, Chemicals, Types, and Energy. We consistently update our research offerings to ensure our clients are aware of the latest trends existent in the market. Emergen Research has a strong base of experienced analysts from varied areas of expertise. Our industry experience and ability to develop a concrete solution to any research problems provides our clients with the ability to secure an edge over their respective competitors.
