

Wireless Display Market Size and Share to Hit the Growth with USD 9.69 Billion in 2030 at a CAGR of 11.0%

Market Trends – Significant investments in research & development activities

VANCOUVER, BC, CANADA, June 29, 2023 /EINPresswire.com/ -- The study on the Global [Wireless Display Market](#) is the latest report covering the impact analysis of the currently ongoing COVID-19 pandemic. The pandemic has directly affected the market by causing disruptions in the global supply chains and indirectly by inducing financial difficulties. The

Wireless Display market has witnessed dynamic changes in trends and demands owing to the ongoing COVID-19 pandemic. The report provides a detailed outlook on how the pandemic has affected the key segments of the Wireless Display industry. The report includes an in-depth impact analysis of the COVID-19 pandemic on the overall Wireless Display industry

“

Market Size – USD 3.82 Billion in 2021, Market Growth – at a CAGR of 11.0%, Market Trends – Significant investments in research & development activities

”

Emergen Research

The global wireless display market size reached USD 3.82 Billion in 2021 and is expected to register a revenue CAGR of 11.0% during the forecast period, according to latest analysis by Emergen Research. Widespread use of smart television, smartphones, tablets, computers, and laptops is driving market revenue growth.

Integration of traditional Wireless Display and wireless display is a recent trend in the information technology (IT) industry driving demand for wireless displays. Companies and organizations are increasingly adopting cloud-based wireless Wireless Display display technology for advertising

their products, services, events, and many more, as it gives them the benefit to store and backup

their content and data, which is boosting revenue growth of the wireless display market.

As well as new entrants in the Wireless Display market. It focuses on the recent mergers & acquisitions, joint ventures, collaborations, partnerships, licensing agreements, brand promotions, and product launches, among others.

Some major companies in the global market report include Google LLC, Amazon.com, Inc., Microsoft Corporation, Roku, Inc., Sony Corporation, LG Electronics, Samsung Electronics Co., Ltd., NVIDIA Corporation, Rockchip Electronics Co., Ltd., Marvell Technology, Inc., Toshiba Corporation, and Panasonic Holding Corporation.

Market Scope:

One of the report's central components is the broad Wireless Display market segmentation that includes the product type gamut, application spectrum, end-user industry landscape, significant geographical regions, and the top market contenders. The report contains unbiased industry expert opinions on the current market scenario, past market performance, production & consumption rates, demand & supply ratio, and revenue generation forecasts over the estimated period. The key players' financial positions, along with their gross profits, sales volumes, sales revenue, manufacturing costs, and other financial ratios, have been accurately gauged in the report.

Reports Highlights:

Hardware components include wireless display panels, banners, LED, LCD screens, and others. There is a rising demand for display signage due to recent technological advancements and innovations in display technology, such as 1080p display, 4K display, and introduction of 8K display.

Moreover, for commercial purposes, there is also a rising demand for wireless displays owing to advancements in 3D technology such as glass-free 3D display panels used for advertisements to attract customers, which is expected to drive revenue growth of the segment.

The commercial segment accounted for largest revenue share in 2021. There is a rising demand for wireless displays for advertising and broadcast purposes and also in sectors such as government sectors, healthcare, and educational institutes

The global Wireless Display market is broadly segmented on the basis of different product types,

application range, end-use industries, key regions, and an intensely competitive landscape. This section of the report is solely targeted at readers looking to select the most appropriate and lucrative segments of the Wireless Display sector in a strategic manner. The segmental analysis also helps companies interested in this sector make optimal business decisions and achieve their desired goals.

Emergen Research has segmented the global wireless display market on the basis of offering type, application type, technology protocol, and region:

Offering Type Outlook (Revenue, USD Billion; 2019-2030)

Hardware

Standalone

Brand Product Integrated

Software & Services

Application Type Outlook (Revenue, USD Billion; 2019-2030)

Residential

Commercial

Corporate & Broadcast

Wireless Display

Government (Defense, Command Center, and Public Offices)

Healthcare

Education

Others (Automotive and Transportation, Industrial, and Hospitality)

Technology Protocol Outlook (Revenue, USD Billion; 2019-2030)

WirelessHD

WiDi

Miracast

AirPlay

Google Cast

DLNA

Others (WHDI, WiGig, and UWB)

Regional Bifurcation of the Wireless Display Market Includes:

North America (U.S., Canada)

Europe (U.K., Italy, Germany, France, Rest of EU)

Asia Pacific (India, Japan, China, South Korea, Australia, Rest of APAC)

Latin America (Chile, Brazil, Argentina, Rest of Latin America)

Middle East Africa (Saudi Arabia, U.A.E., South Africa, Rest of MEA)
