“

It is an honor to be recognized for what I consider a privilege of being able to help other women each and every day.”

Dr. Stephanie Molden

Castle Connolly's Exceptional Women in Medicine award is given to female physicians who have demonstrated excellence in their field and have been recognized by their peers as being among the best. The list for Exceptional Women in Medicine is chosen through a rigorous selection process which includes peer nomination and research and evaluation from the Castle Connolly team. As part of the qualifications, doctors must also have contributed to healthcare through training at top institutions, volunteer work, contributing to research and academics, being a part of innovations in their field of specialty, and having awards and honors.

Castle Connolly has over 30 years of experience researching and selecting Top Doctors and is a credible and trusted source.

“It is an honor to be recognized for what I consider a privilege of being able to help other women each and every day.”, Dr. Stephanie Molden.

Dr. Molden is a highly respected urogynecologist who specializes in female pelvic health. Her

dedication to her patients and commitment to providing the highest quality care has earned her these prestigious awards. She has performed over 2000 minimally invasive procedures, including the first Urogynecologic surgeries using the daVinci robotic surgical system at both St Luke's and St. Mary Medical Centers. She is one of a small number of doctors in the region to complete a three-year fellowship in Urogynecology, and one of the first in the entire country to be Board Certified. For Female Genital Cosmetic Surgery, she trained under Dr. David Matlock, "cosmetic surgeon to the stars," in Beverly Hills. A lecturer noted researcher, and leading educator on Urogynecologic procedures, Dr. Molden is a proctor to an international list of surgeons, has appeared on national television to speak on Female Pelvic Health issues, presented at numerous national and international symposiums, and published in leading medical journals.
