

Modius Announces Distribution Agreement with TD SYNEX to Offer OpenData® Data Center Infrastructure Management Software

SAN FRANCISCO, CALIFORNIA, USA, July 5, 2023 /EINPresswire.com/ -- [Modius Inc.](#), a leading provider of [Data Center Infrastructure Management \(DCIM\)](#) solutions, is pleased to announce a distribution agreement with TD SYNEX, a leading global distributor and solutions aggregator for the IT (Information Technology) ecosystem.

This collaboration brings together two industry leaders to deliver Modius' innovative DCIM products to customers across the globe.

Modius' DCIM solution, OpenData® is designed to help organizations optimize their data center operations, enhance energy efficiency, and streamline capacity planning. Using real-time monitoring and analytics capabilities, Modius empowers data center operators with actionable insights to improve performance, reduce costs, and mitigate risks. The agreement between TD SYNEX and Modius aims to meet the increasing demand for advanced DCIM solutions in today's rapidly evolving data center landscape.

"TD SYNEX is committed to uniting IT solutions that deliver business outcomes today and unlock growth for the future," said Scott Young, Senior Vice President, Product Management at TD SYNEX. "With Modius added to our vast portfolio of vendor partners, we're able to enrich the breadth and depth of our offerings so customers can do great things with technology." □

"We are delighted to work with TD SYNEX to expand the reach of our DCIM solutions and provide customers with the tools they need to transform their data center operations," said Craig Compiano, President at Modius. "TD SYNEX's global presence and strong distribution capabilities align perfectly with our mission to enable organizations to drive efficiency, improve sustainability, and optimize performance in their data centers."
