

# Back Pain & Joint Center of Texas Introduces New Neuropathy Treatments

---

Conroe, Texas – Back Pain & Joint Center of Texas is delighted to announce that new neuropathy treatments are now available. The clinic has the expertise to help patients who are dealing with neuropathy symptoms caused by a variety of factors, including diabetes and chemotherapy. These patients can get the support they need from Dr. H. Kala Eulitt, DC, BCN and Dr. Gabby Williams, DC, BCN who are both certified in treating neuropathy and chronic pain from The American College of Physical Medicine. These non-surgical and non-invasive treatments can have a transformative effect on patients' lives.

The treatments are ideal for treating neuropathy and nerve damage symptoms that are associated with burning, weakness, tingling, and balance. Patients who have diabetes, are undergoing chemotherapy, or just getting older, may experience nerve damage symptoms that require specialized treatment to alleviate their symptoms and improve their overall quality of life. At Back Pain & Joint Center of Texas, all treatments are overseen by providers who are certified in treating neuropathy, ensuring that patients receive the highest level of care in a professional and controlled environment. This approach allows their experienced healthcare professionals to closely monitor and customize treatments to meet each patient's specific needs, promoting optimal outcomes and patient satisfaction.

With so many people struggling with back and joint pain, it's essential that they have access to specialized health care that can help them manage their chronic pain. Patients can now receive a free consultation to learn more about what kind of treatment options they need to consider to get on a path of recovery to improve their quality of life. the consultations are an excellent opportunity for them to get expert advice to fully understand what kind of treatment will benefit them the most.

Back Pain & Joint Center of Texas offers a unique combination of treatments that patients may not find in other clinics in the area. This clinic combines physical rehabilitation, chiropractic care, and nutritional therapy with medical care and so much more. Back Pain & Joint Center of Texas has changed the lives of thousands of patients by helping them finally get the right treatment and relief for their neuropathy and disc related pain.

At the Back Pain & Joint Center of Texas, the first step is to attend one of their free educational workshops about neuropathy or disc pain, step two the Comprehensive Examination is where you'll receive a series of specific tests to identify exactly what is causing the problem, and step three is relief. Patients who have severe pain that gets in the way of their everyday lives can finally get the help they need.
