These types of esters market consists of the sales of sucrose ester products by entities (organization, sole-trader, and partnerships) that are a unique group of emulsifiers and low-fat alternatives used in food products including ice-cream, confectionery, dairy, and others. Sucrose Esters also perform other functions in food processing such as protein protection, aeration, hydrophilic-lipophilic, and starch interaction. These types of esters have good conditioning and stabilizing properties. Sucrose esters are also used in the production of personal care products, laundry products, and detergents.
