curriculum is designed for current and aspiring board members who seek to advance the governance of risk-taking at their organizations and those who interact with boards. Taught by some of the world's leading figures in risk governance, the program features lessons by nearly 50 board members, c-level executives, and well-known authors from five continents. No course on risk for board members as robust as this - depth, practicality, and global expertise - exists anywhere else.

"This program helped me to connect many challenges I have been facing in board governance and will enable me to be a more effective director with a broader view of the opportunities offered through effective risk management," said Ms. Barclay.
