Increase in cyber-attacks and surge in mandatory legislations regarding cyber security fuel the growth of the global cyber insurance market. On the other hand, dearth of standardized policies impedes the growth to some extent. However, expansion of products and services, and development in emerging economies are expected to create lucrative opportunities for the key players in the industry.

The large enterprises segment to maintain its dominance till 2026-

Based on organization size, the large enterprises segment contributed to more than two-thirds of the total market share in 2018, and is expected to dominate by the end of 2026. The SMEs segment, on the other hand, would grow at the fastest CAGR of 27.2% from 2019 to 2026.
