Market Drivers and Restraints: –

However, high buying and maintenance cost of simulators especially high fidelity stimulators is a major factor hampering growth of the global healthcare simulators market. Small scale teaching hospitals and institutes do not have enough funding for simulator-based medical education. The cost of simulator varies based on the fidelity, methods, and technology of the simulation. For instance, according to Society of American Gastrointestinal and Endoscopic Surgeons, 2016, the cost of Simulab Corporation's Trauma Man, a surgical stimulator is around US\$ 24,000.
