

Unlocking the Future: DAO Redefines the Cryptocurrency Market with Cutting-Edge Smart Contract Listings for Trading.

ExtractoDAO: Empowering Crypto Trading with Smart Contracts

PETERBOROUGH, HAMPTON VALE,
REINO UNIDO, July 7, 2023
/EINPresswire.com/ -- Unlocking the
Future: Redefines the Cryptocurrency
Market with Cutting-Edge [Smart
Contract](#) Listings for Trading.

ExtractoDAO is set to make waves in the blockchain industry with its visionary platform that empowers producers, companies, and startups to list their projects as non-commodity smart contracts. By offering seamless trading and capitalization opportunities, ExtractoDAO is poised to redefine the standards of the market. Going beyond tokenization, the platform showcases the true potential of blockchain technology and opens up new avenues for innovation.

The launch of ExtractoDAO's DEX, the first platform for [trading smart contracts](#) instead of tokens, is set to take place at the end of July. This groundbreaking platform will enable trading of various contracts, including Timeshare contracts. Buyers of a specific fraction of a property will be able to trade their smart contracts with individuals from anywhere in the world who are interested in enjoying that particular property.

Strong Support from Technology Leaders:

It is an innovative form of community investment instruments in the Ecosystem. These COWs is generated after the burning of individual smart contracts that have expired, resulting in the issuance of COWs.

ExtractoDAO enjoys the backing of industry giants like Huawei and Microsoft, cementing its position as a rising star in the blockchain ecosystem. Collaborating with Huawei, ExtractoDAO is conducting a Proof of Concept (POC) to demonstrate the platform's scalability and efficiency in handling large-scale operations. The partnership with Microsoft further fuels ExtractoDAO's growth, providing valuable resources for expansion and technological advancements.

Transforming the Tourism Industry: Global Timeshare Revolution:

Through ExtractoDAO's innovative platform, the concept of timeshare and fractional ownership takes center stage. Builders can now promote and sell global timeshare and fractional ownership projects directly, eliminating intermediaries and reducing costs. Leveraging the power of smart contracts, ExtractoDAO enables secure and efficient transactions within the tourism sector, presenting exciting opportunities for businesses and investors.

ExtractoDAO revolutionizes the cryptocurrency market by introducing smart contracts for seamless and secure trading."

Joel Almeida -CEO

Users have the opportunity to purchase timeshare contracts for durations of 20 or 30 years, providing them with extended ownership and usage rights. What sets ExtractoDAO apart is the flexibility it offers to timeshare owners. If they wish to transfer ownership, they can sell their smart contract to a third party, enabling a seamless transfer of property rights. This opens up new possibilities for timeshare owners to monetize their investments and find buyers. Buyers of a specific fraction of a property will

be able to trade their smart contracts with individuals from anywhere in the world who are interested in enjoying that particular property.

The new version of ExtractoDAO's platform, powered by Drawer technology, introduces several key enhancements beyond the trading experience. In addition to facilitating seamless workflows, the platform allows for the storage and archiving of files and documents, enhancing the overall usability and practicality of the system. The integration of smart contracts and document

ExtractoDAO Bull is a utility governance token that empowers holders with voting rights based on their token weight.

management capabilities positions ExtractoDAO as a comprehensive solution for businesses looking to streamline operations and improve efficiency.

All legal documents related to a timeshare property, including sensitive information within the smart contracts, can only be accessed by the two parties involved in the transaction. The DRAWER platform ensures that updates, blueprints, property descriptions, and tax payments are visible exclusively to the timeshare owner and the contract issuer, preserving privacy and confidentiality.

Enhanced Functionality with Drawer Technology:

Enhanced Functionality with Drawer Technology:

With the introduction of Drawer technology, ExtractoDAO's platform offers enhanced features beyond trading. The platform provides a secure and centralized space for storing and archiving files and documents, streamlining workflows and improving overall efficiency. By integrating smart contracts and document management capabilities, ExtractoDAO presents a comprehensive solution for businesses seeking operational optimization. The Drawer technology offered by ExtractoDAO is not limited to a specific sector but rather has the flexibility to serve a wide range of markets. Its robust functionality and customizable features make it adaptable to diverse industries, including real estate, finance, supply chain, and more. The versatility of Drawer opens up a world of possibilities for businesses seeking efficient and secure contract management solutions.

In the real estate sector, Drawer simplifies and streamlines contract management processes, reducing paperwork, minimizing errors, and enhancing overall efficiency. Property developers, agents, and buyers can securely store and access essential documents, such as title deeds, purchase agreements, and property descriptions, in a centralized and tamper-proof environment. The transparency and immutability of blockchain technology ensure trust and reliability throughout the transaction lifecycle.

Pioneering Non-Commodity Contract Listings:

It is a smart contract that creates community-owned wealth securities and serves a specific purpose: financing livestock production

ExtractoDAO's mission is to create a decentralized marketplace where non-commodity contracts can be securely listed and traded. By empowering businesses and startups to capitalize on their projects and access global markets, ExtractoDAO drives innovation across various sectors. Supported by industry leaders and advanced technologies, ExtractoDAO is set to transform the smart contracts landscape, redefining how contracts are traded and leveraged.

Promoting Responsible Investment:

Unlike platforms that prioritize quantity over quality, ExtractoDAO takes a responsible approach to project evaluation. The platform aims to support projects that contribute genuine value to society and protect investors' capital. By questioning the support extended to less meaningful projects that carry significant risks, ExtractoDAO sets a new standard for responsible investment, fostering investor confidence and legitimizing the blockchain industry.

Drawer technology can also revolutionize financial operations by providing a secure platform for managing contracts related to loans, investments, and other financial instruments. Smart contracts within the Drawer ecosystem enable automated execution of predefined conditions, eliminating the need for intermediaries and reducing the risk of fraud. This streamlines processes, accelerates transactions, and enhances the overall user experience.

With its ability to store and manage contracts, invoices, and other critical supply chain documents, Drawer plays a pivotal role in enhancing transparency and efficiency in supply chain management. By leveraging smart contract technology, ExtractoDAO's platform enables real-time tracking of goods, facilitates automated payments, and establishes trust among stakeholders. The result is a streamlined supply chain ecosystem that reduces costs, minimizes disputes, and ensures timely delivery of goods and services.
