

Niwa Aesthetics & Wellness Introduces EON: A Smarter Body Contouring Experience

EON, the premier touchless, robotic body contouring treatment, is now available in Chicago Ridge, IL.

CHICAGO RIDGE, ILLINOIS, USA, July 7, 2023 /EINPresswire.com/ -- [Niwa](#) Aesthetics & Wellness is pleased to announce that they are now specializing in [EON](#) body contouring treatments and are the first medical spa in Chicago Ridge, IL to offer this technology.

The EON laser technology will allow Niwa Aesthetics and Wellness to offer their clients in Chicago Ridge and the surrounding areas a non-invasive body contouring treatment that permanently eliminates fat cells without the downtime of a surgical procedure. EON treatments are ideal for clients trying to target those stubborn areas of fat that diet and exercise cannot improve and have a high patient satisfaction rate.

“At Niwa Aesthetics & Wellness, our goal is to provide the best options for our clients. We are excited to offer EON as a groundbreaking body contouring treatment. We look forward to helping our clients achieve their goals with this amazing, cutting-edge, non-surgical approach,” said Dr. Yaw Donkoh, medical director at Niwa Aesthetics and Wellness.

“

At Niwa Aesthetics & Wellness, our goal is to provide the best options for our clients. We are excited to offer EON as a groundbreaking body contouring treatment.”

Dr. Yaw Donkoh

EON is a 1064nm laser that’s currently FDA-cleared for flanks, full abdomen, back, and thighs and is backed by years of research and industry-leading scientist and doctors. With its state-of-the-art robotic precision, EON can simultaneously deliver laser energy and cooling for a more comfortable body contouring treatment experience without post-treatment care or downtime.

The device is designed with touchless, autonomous technology that maps the patient's topography for personalized treatments. The device utilizes over 40 safety sensors for advanced patient safety, including skin proximity and temperature detection. EON heats adipose tissue to a temperature of approximately 123.8° F, inducing cell death or apoptosis. The state-of-the-art jet impingement cooling system maintains the external skin temperature to around 103.1°F for a comfortable patient experience.

Who is a candidate for EON?

Anyone looking to permanently reduce stubborn fat in the upper / lower abdomen, flanks, back, or thighs. People looking for a non-invasive solution for body sculpting that doesn't interrupt their normal daily schedule. Manageable BMI of 30 or less No contraindications and precautions acknowledged People able to "pinch an inch" in the treatment area

Provider studies show that patients experienced a 21.6 - 25 percent average fat reduction after a single 60-minute abdominal treatment, while some people lost as much as 40 percent.

Dominion Aesthetic Technologies, maker of EON Smarter Body Contouring, CEO Cooper Collins, also shared his enthusiasm for the collaboration: "We are honored to partner with [Dr. Donkoh](#) and his esteemed practice. EON's advanced technology and intelligent design make it a game-changer in the aesthetic industry. Our goal is to provide patients with a transformative experience, and we are confident that Dr. Donkoh will deliver outstanding results."
