In addition to the gaming-focused data plans, AirHubApp now provides country-specific local numbers to travelers.

This feature allows users to have a local phone number in the country they are visiting, ensuring enhanced accessibility and convenience for both personal and business communications. With country-specific local numbers, travelers can effortlessly stay connected with local contacts, receive important calls, and maintain a local presence, all while using the AirHubApp eSIM service.

"We are excited to introduce these new enhancements to our eSIM service, further expanding the capabilities and benefits of AirHubApp," said Sarah Johnson, Head of Product Development at AirHubApp. "By offering unlimited data plans for gamers and country-specific local numbers for travelers, we aim to provide tailored solutions that cater to the unique needs of our diverse customer base. Our commitment to innovation drives us to continually improve and deliver cutting-edge services that transform the way people connect and communicate globally."
