

# New Medical Group Brings Personalized and Contemporary Cardiovascular Care to the Treasure Valley

*High Desert Heart & Vascular Plans to Serve the Community Through a Greater Focus on Patients and Their Caregivers*

BOISE, IDAHO, UNITED STATES, July 9, 2023 /EINPresswire.com/ -- [High Desert Heart & Vascular](https://www.einpresswire.com/High-Desert-Heart-Vascular) opens their doors on Monday, July 10th at 8854 West Emerald Street. Founding partners, and Treasure Valley residents, Dr. Daniel Noonan, Dr. Fred Costello, Dr. David Hinchman, and Dr. Joshua Mozes represent a collective 75+ years of experience in cardiovascular medicine at large healthcare organizations. After observing rising costs, administrative bulk, and a need for more competition and choice, they agreed that the best way to provide top-notch care to their community would be to start the only independent cardiovascular group in the region.

The team of renowned cardiologists, Dr. Daniel Noonan, Dr. David Hinchman, Dr. Frederick Costello, and Dr. Joshua Mozes, who are committed to providing personalized, evidence-based medicine and collaborative care to improve the health and well-being of th

Before founding their new practice, Noonan consulted with other doctors, nurse practitioners, registered nurses, administrators, insurers, consultants, and staff to develop a plan that would prioritize the needs of patients and medical staff and ensure that doctors and patients have the opportunity to give and receive the best care possible.

High Desert Heart & Vascular cardiology practice and hospital department are centrally located in the Treasure Valley and designed with one clear goal: put patients and providers first. They offer a healthcare experience that respects and values the needs of everyone involved and pioneers a more affordable way to deliver healthcare to their community.

"The more we can do on an individual level to prevent illness by emphasizing screening tests and lifestyle modifications, the more that moves the needle on a community and national level ...and has the dual benefit of helping feed a patient's autonomy and really helping take the reins of their own health"

- Dr Daniel Noonan MD, FHRS, FACC

"I am so excited for the opportunity to provide better access, exceptional care, and better value to the people in Idaho."

- Frederick M Costello MD, FACC

"Medicine offers never-ending education and I like to bring and discuss the latest science to my patients so we can tailor their care to meet their goals. Our practice rethinks contemporary cardiac care delivery."

- David Hinchman MD, FACC

#### Brief Physician Bios:

Dr. Daniel Noonan MD, FHRS, FACC

PRESIDENT AND CO-FOUNDER
