

ARC Swaps AI revolutionizes DeFi with powerful features, making tokens safer through live analysis and generative audits

WILMINGTON, DELAWARE, USA, July 11, 2023 /EINPresswire.com/ -- ARC is thrilled to announce the launch of ARC Swaps AI, a professional-grade DeFi tool that will redefine the swapping experience. Its key features are geared towards securing Web3 and democratizing audits, ARC Swaps AI aims to empower users with comprehensive token insights, enhanced security measures, and optimized portfolio management, revolutionizing the way and making it safer for users interact with decentralized exchanges.

ARC Swaps AI will be available for use starting July 11, 2023. Users can access the platform at app.arc.market/swap

ARC Swaps AI revolutionizes swaps with its primary benefit, the generative audits. This AI-powered audit feature takes security and trust to the next level by providing users with

“

Our goal is to empower users with innovative tools and features that enhance their swapping experience, while ensuring security & trust. With ARC Swaps AI, the primary benefit being generative audits.”

TJ Dunham, CEO of ARC

comprehensive and real-time analysis of tokens. The generative audits go beyond traditional methods, offering continuous monitoring and ensuring the safety and integrity of tokens. With ARC Swaps AI, users can make well-informed choices, enhance their confidence in transactions, and navigate the DeFi landscape with heightened security.

Another standout features of ARC Swaps AI is the AI Token Overview, which provides users with quick access to vital token information and insights. This feature equips users with the knowledge necessary to make strategic decisions

and navigate the fast-paced DeFi landscape with confidence. The definitive sidebar feature ensures that users have the information they need for secure and informed swaps, elevating the

overall swapping experience.

The advanced wallet system not only provides an effective way to monitor your cryptocurrency holdings and identify errors or vulnerabilities in tokens but also allows for cheaper transaction fees compared to other swap platforms. The seamless integration with popular wallets, such as Metamask, ensures a smooth user experience from the very beginning, while alpha support for Coinbase offers early access to a wider range of users.

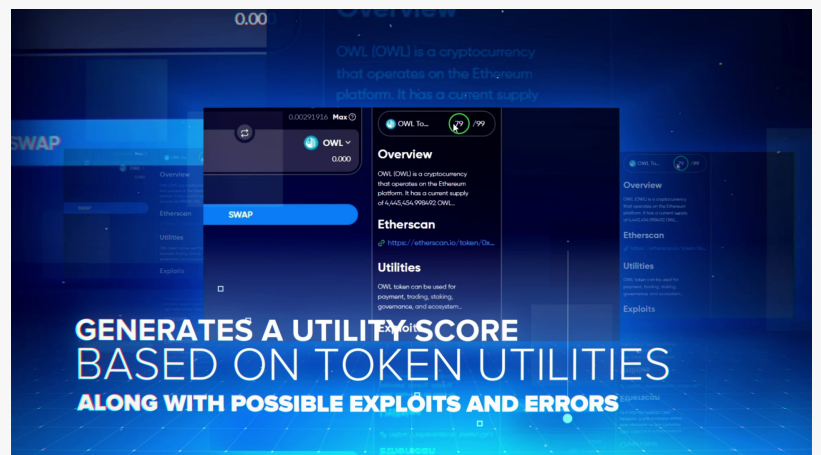

"We are beyond excited to introduce ARC Swaps AI to the DeFi and Web3 community," said TJ Dunham, the CEO of ARC. "Our goal is to empower users with innovative tools and features that enhance their swapping experience, while ensuring security and trust. With ARC Swaps AI, the primary benefit being generative audits, along with the AI Token Overview and advanced wallet system, we are poised to revolutionize DeFi and set new industry standards."

ARC Swaps AI will be available for use starting today, July 11, 2023. Users can access the platform at app.arc.market/swap and explore the powerful features that will transform their DeFi journey.
