

# Medical Cart Market to Surge, Projected to Reach USD 5.29 Billion by 2032 with 14.3% CAGR | Reports and Data

*The Medical Cart Market value for was USD 1.59 Billion in 2022 and is expected to reach USD 5.29 Billion in 2032 growing at a CAGR of 14.3%.*

NEW YORK CITY, NY, UNITED STATES, July 11, 2023 /EINPresswire.com/ -- The [Medical Cart Market](#) had a value of USD 1.59 Billion in 2022 and is projected to reach USD 5.29 Billion in

2032, with a compound annual growth rate (CAGR) of 14.3% during the forecast period. The primary drivers of the market's revenue growth are the increasing demand for technologically advanced medical carts and the need for flexible and adaptable equipment in healthcare settings.

The rising prevalence of chronic diseases such as Diabetes, cardiovascular disease, and cancer has led to a higher demand for efficient and adaptable equipment. Furthermore, the growing elderly population and the increased requirement for Home Healthcare services have contributed to the surge in demand for medical carts. These carts facilitate the transportation of medical supplies and equipment, enhancing the effectiveness and efficiency of healthcare services.
