That's why Delta Dental of Arkansas has launched a new partnership with [TeleDentistry.com](https://teledentistry.com) to offer its members 24/7 access to virtual dental visits at <https://teledentistry.com/delta-dental-arkansas>.

“

TeleDentistry.com fills an urgent need for dental care for oral health emergencies that happen after hours or away from home or for people who don't have an established dentist.”

Professional Relations at
Delta Dental of Arkansas*

Virtual visits don't replace routine preventive care checkups with a dentist but deliver expert guidance, prescriptions and referrals to a Delta Dental network dentist if and when needed.

“TeleDentistry.com fills an urgent need for dental care for oral health emergencies that happen after hours or away from home or for people who don't have an established dentist,” said Thomas Redd, DDS, VP of Professional

Relations at Delta Dental of Arkansas. “Virtual visits with a dental professional through TeleDentistry.com can give our members peace of mind and a low-cost alternative to expensive trips to the emergency room.”

Through TeleDentistry.com, Delta Dental network dentists can provide virtual consultations and write prescriptions when appropriate. They can also offer a referral to a Delta Dental network dentist if additional treatment is needed.

TeleDentistry.com services are a covered insurance benefit for most Delta Dental of Arkansas members. Members should contact Delta Dental of Arkansas to verify coverage through their group plan. A Virtual Visit is counted as a problem-focused, limited examination and counts as a regular preventive oral exam.

Members can use Virtual Visits provided through TeleDentistry.com for dental issues that arise after hours, on weekends, holidays or out-of-town trips or when they don't have an established dentist.

"TeleDentistry.com is dedicated to improving access to dental care," said Dr. Vilas Sastry, CEO of TeleDentistry.com. "We are proud to partner with Delta Dental of Arkansas to help support their members with a virtual dentist anytime, anywhere."
