The screw chillers market research report outlines the competitive landscape of the industry to help the key market players increase their shares and stay competitive in the industry. The report includes market forecasts for market size, outcome, revenue, consumption, CAGR, gross margin, price, and other important variables. It is composed of the most effective primary and secondary research techniques and resources available in the field. It includes numerous research studies on market dynamics, production and consumption analysis, pricing analysis, company profiling, and manufacturing cost analysis.

Market Dynamics:

The study provides Porter's five forces analysis to understand the impact of various factors such as bargaining power of suppliers, competitive intensity of competitors, threat of new entrants, threat of substitutes, and bargaining power of the buyers in the global screw chillers industry. The report also provides in-depth analysis of current market trends as well as potential future

growth areas, as well as current growth drivers, challenges, opportunities, trending market segments, consumer behavior, market performance, pricing factors, SWOT analysis, and estimation.

Prime Determinants of Growth:

Drivers

Rise in demand of screw chillers from various industry verticals such as food & beverages, chemicals and petrochemicals, pharmaceutical, plastic, oil and gas, and others.

High demand of screw chillers due to its high volumetric efficiency and capability to provide uniform and continuous flow of refrigerants.

Restraints

COVID-19 pandemic

Opportunities

Advantages of screw chillers like elimination of possibility of pressure drop and production of less vibrations

Segmental Analysis:

The report analyzes key segments of the screw chillers market on the basis of product type, compressor type, end user industry, and region.

By product type

Air Cooled Chiller

Water-Cooled Chiller

By compressor type

Single

Dual and Twin

By end user industry

Food and Beverage

Chemical and Petrochemicals

Pharmaceutical

Oil and Gas

Others

By region

North America (U.S., Canada, Mexico)

Europe (Germany, Italy, UK, France, Rest Of Europe)

Asia-Pacific (China, Japan, India, Australia, Rest Of Asia-Pacific)

LAMEA (Latin America, Middle East, Africa)

Key market players in the global screw chillers market:

The leading market players profiled in the screw chillers market include EUROKLIMAT S.P.A., Carrier, Mitsubishi Electric Hydronics & IT Cooling Systems S.p.A, Johnson Controls, Trane Technologies plc, Dunham Bush, Robert Bosch GmbH, McQuay Air-conditioning Ltd., and Haier Group, LG Electronics.
