

# Ammonium Nitrate Prices, Trends & Forecasts | Provided by Procurement Resource

*Procurement Resource does an in-depth analysis of the price trend to bring forth the monthly, half-yearly, and yearly information on the Ammonium Nitrate price.*

SHERIDAN, WYOMING, UNITED STATES,  
July 12, 2023 /EINPresswire.com/ --  
Ammonium nitrate is a chemical compound with the molecular formula  $\text{NH}_4\text{NO}_3$ . It is a white crystalline solid that is highly soluble in water.

It is commonly used in agriculture as a high-nitrogen fertilizer. It is also used in the manufacturing of explosives and as an oxidizing agent in rocket propellants.

Request for Real-Time Ammonium Nitrate Prices:

<https://www.procurementresource.com/resource-center/ammonium-nitrate-price-trends/pricerequest>

It can be synthesized by reacting ammonia gas with nitric acid. The resulting compound is highly soluble in water and can be easily dissolved to form a concentrated solution, which can then be used as a fertilizer or explosive.

China, India, Taiwan, Japan, and South Korea are the top ammonium nitrate-producing countries around the globe.

Key Details About the [Ammonium Nitrate Price](#) Trend:

Procurement Resource does an in-depth analysis of the price trend to bring forth the monthly, quarterly, half-yearly, and yearly information on the Ammonium Nitrate price in its latest pricing dashboard. The detailed assessment deeply explores the facts about the product, price change over the weeks, months, and years, key players, industrial uses, and drivers propelling the market and price trends.

Each price record is linked to an easy-to-use graphing device dated back to 2014, which offers a series of functionalities; customization of price currencies and units and downloading of price information as Excel files that can be used offline.

The Ammonium Nitrate Price chart, including India's Ammonium Nitrate price, and USA's Ammonium Nitrate price, pricing database, and analysis can prove valuable for procurement managers, directors, and decision-makers to build up their strongly backed-up strategic insights to attain progress and profitability in the business.

#### Industrial Uses Impacting Ammonium Nitrate Price Trend:

It is an industrial chemical with a wide range of applications. One of its most common uses is as a high-nitrogen fertilizer in agriculture. It provides a readily available source of nitrogen to plants, helping to increase crop yields and improve soil fertility.

It is also used as an ingredient in a variety of other fertilizers, including compound fertilizers that contain nitrogen, phosphorus, and potassium.

In addition to its use in agriculture, ammonium nitrate is also used in the manufacturing of explosives. It is a key ingredient in many types of explosives, including dynamite, ammonium nitrate fuel oil (ANFO), and other blasting agents.

When combined with other fuels and oxidizers, ammonium nitrate can produce a powerful reaction that generates thrust and propels rockets and missiles.

Other than that, it is also used in the production of pyrotechnics and fireworks. It can be combined with other chemicals to create vibrant colors and special effects in these products.

#### Key Players:

EuroChem Group AG  
Fertiberia, S.A  
VWR International, LLC  
Yara International ASA  
CF Industries Holdings, Inc  
Sumitomo Chemical Co., Ltd  
San Corporation  
PhosAgro Group of Companies

#### Recent News:

26 April 2023: At the Gadepan complex in the northwestern Rajasthan state, India's Chambal Fertilisers started building a greenfield 240,000 tonne/year technical ammonium nitrate (TAN)

plant.

#### About Us:

Procurement Resource offers in-depth research on product pricing and market insights for more than 500 chemicals, commodities, and utilities updated daily, weekly, monthly, and annually. It is a cost-effective, one-stop solution for all your market research requirements, irrespective of which part of the value chain you represent.

We have a team of highly experienced analysts who perform comprehensive research to deliver our clients the newest and most up-to-date market reports, cost models, price analysis, benchmarking, and category insights, which help in streamlining the procurement process for our clientele. Our team tracks the prices and production costs of a wide variety of goods and commodities, hence providing you with the latest and consistent data.

To get real-time facts and insights to help our customers, we work with a varied range of procurement teams across industries. At Procurement Resource, we support our clients, with up-to-date and pioneering practices in the industry, to understand procurement methods, supply chain, and industry trends, so that they can build strategies to achieve maximum growth.
