

Hive Pro Secures Second Round of Seed Funding to Expand Headquarters and Enhance its Threat Exposure Management Platform

HERNDON, VIRGINIA, UNITED STATES, July 12, 2023 /EINPresswire.com/ -- [Hive Pro](#), a pioneer in the Threat Exposure Management market, announced today that they have closed \$4 million in their seed funding round from private investors. The successful completion of Hive Pro's second round of seed funding will support the continued delivery of Hive Pro: Threat Exposure Management, a trusted platform to address the growing challenge of cyber threats.

One of the first objectives this funding round will support is the relocation and expansion of their new Virginia-based headquarters. The new headquarters will provide a state-of-the-art facility that accommodates the company's growing team and fosters collaboration and innovation. By establishing a larger and more advanced workspace, Hive Pro will continue to attract top talent and enhance its capabilities to meet the increasing demand for its platform.

Furthermore, a significant portion of the funding will be allocated to enhancing the [Hive Pro Threat Exposure Management Platform](#). Hive Pro is a comprehensive cybersecurity platform that enables organizations to proactively manage and mitigate threats by identifying vulnerabilities, prioritizing risks, and providing actionable insights for effective remediation. The investment will further strengthen the platform's capabilities, incorporating advanced threat intelligence, machine learning algorithms, and real-time monitoring features, making it even more robust and responsive to emerging cyber threats.

"We are thrilled to have successfully raised our second round of seed funding," said Anand Choudha, Founder and CEO at Hive Pro. "This additional investment will allow us to accelerate our growth plans, expand our team, and enhance our Hive Pro Threat Exposure Management Platform to provide customers with continuous and unparalleled threat and vulnerability

We are thrilled to have raised our second round of seed funding, accelerating growth, expanding our team, and enhancing our threat exposure management platform for threat and vulnerability reduction.”
