Laser Processing Global Market Report 2023 – Market Size, Trends, And Market Forecast 2023-2032

The Business Research Company's global market reports are now updated with the latest market sizing information for the year 2023 and forecasted to 2032"

*The Business Research  
Company*

The growth in the global laser processing industry is due to the increasing applications of lasers in medical devices and surgeries. Asia-Pacific region is expected to hold the largest [laser processing market share](#). Major laser processing market companies include Coherent, Inc., TRUMPF, Inc., Han's Laser, IPG Photonics, Jenoptik Group, Lumentum, Gravotech Marking SAS.

#### [Laser Processing Market Segments](#)

- By Type: Gas Laser, Liquid Laser, Solid Laser, Other Types
- By Application: Cutting, Welding, Drilling,

Microprocessing, Marking and Engraving, Other Applications

□By End-Use Industry: Aerospace and Defense, Automotive, Healthcare, Machine Tools, Architecture, Electronics and Microelectronics, Other End User Industries

□By Geography: North America, South America, Asia-Pacific, Eastern Europe, Western Europe, Middle East and Africa.

Laser processing refers to laser processing as the use of a laser beam projection to the surface of a material produced by a thermal effect to complete the processing, which includes laser welding, laser cutting, surface modification, laser marking, laser drilling, and micro processing. Laser beams are used to perform various materials such as punching, cutting, scribing, welding, and heat treatment because lasers can adapt to any material's process.
