Definition:

Modular is a word that is very well-used these days. The word “Modular” means such a layout that can be broken into a different set of modules that can be easily repeated, copied, or set up. A modular kitchen has its own benefit over the traditional kitchens. These types of kitchen increase space management, efficiency, storage, usability and also give the kitchen an artistic view. Modular kitchens are very easy to keep up with, remodel, install, or repurpose. The best part about modular kitchens is that they are designed by the personal needs and requirements, which makes these functions integrated with the layout selected. Hence modular kitchens are a much smarter and efficient option over traditional or conventional kitchens.

Market Trends:
