Rise in transportation and logistics activities drive the revenue for the tarpaulin market as it is the best suitable material to be used in this field. Safe mobility of goods and commodities need to be kept protected from weather conditions and water that requires packaging of strong and water-resistant material and tarpaulin is best material

satisfying all these requirements and hence demanded in high quantity in this segment.

Tarpaulin sheets are available in three main categories, regular duty, heavy duty, and super heavy duty, which are used for different purposes according to their durability and strength that propels the market growth.

Heavy duty tarpaulins are used in the agriculture sector to prevent produce and equipment from extreme weather conditions and water as there is no other easy way to protect them, tarpaulin is an ideal material to be used. It is cheap, easy, and effective method to be used in this field. Other uses of tarpaulin in this field are that it can be used as a greenhouse shed nets to aid cultivation, temporary shelter for livestock, and silage can be made with the help of tarpaulin.
